

The background of the poster is a microscopic image of cells. The cells are stained with blue and green fluorescent dyes, creating a complex, swirling pattern of light against a dark background. The blue staining highlights the cell nuclei, while the green staining highlights the cytoplasm and other cellular structures. The overall appearance is that of a dense, active cell population.

IWH Symposium on

COLLECTIVE CELL MIGRATION

Heidelberg,

July 13-15, 2015

Confirmed Speakers:

Thomas Angelini, Tamal Das,
Sandrine Etienne-Manneville,
Darren Gilmour, Nils Grabe,
Lars Hufnagel, Alexandre Kabla,
Enkeleida Lushi, Franziska Matthäus,
Roberto Mayor, Celeste Nelson, Joachim Rädler,
Pascal Silberzahn, Michael Sixt, Xavier Trepat
