

POSTDOCTORAL POSITION IN THEORETICAL PHYSICS
INSTITUTE FOR THEORETICAL PHYSICS AT THE UNIVERSITY OF HEIDELBERG

The elementary particle and cosmology division of the Institute for Theoretical Physics at the University of Heidelberg invites applications for postdoctoral positions in theoretical physics. The positions are expected to be filled in the Fall of 2010.

The appointment is for a period of two years.

The elementary particle and cosmology division consists of Profs. L. Amendola, A. Hebecker, H.-J. Pirner, T. Plehn and C. Wetterich, several associated professors, about 10 junior scientists and postdocs and 12 graduate students.

The division runs a lively international visitor program. The research covers a wide range of topics in particle theory, including in particular particle-cosmology, supersymmetry and string theory, particle phenomenology, QCD, non-perturbative and non-equilibrium quantum field theory and phase transitions.

For more information see our www page: <http://www.thphys.uni-heidelberg.de/>.

Applicants should send a CV, a list of publications, a brief description of research interests and goals, and should have three letters of reference sent directly to one of the professors listed above, at the address:

Institut fuer Theoretische Physik
Ruprecht-Karls-Universitaet Heidelberg
Philosophenweg 16
D-69120 Heidelberg
Germany

Tel.: 06221-549444

Fax: 06221-549333

We prefer applications to be sent by post.

Reference letters can also be sent by post or e-mailed to

Korrespondenz@ThPhys.Uni-Heidelberg.DE

We will begin reviewing applications on December 15, 2009.
