

SYMPOSIUM (Michael Schmidt Fest)

From Mathematical Physics to Particles and Cosmology

On the occasion of the retirement of Prof. Michael G. Schmidt,
and in celebration of his future free researcher's life

Heidelberg, 26. September 2008

Tentative Schedule:

14:00 Welcome

14:15 M. Haack (Munich, LMU)

The hydrodynamics of black holes

14:45 A. Klemm (Bonn U.)

String geometry

15:15 J. Fuchs (Karlstad U.)

Defects, symmetries, and dualities in conformal field theory

15:45 Coffee Break

16:15 C. Schweigert (Hamburg U.)

Bundle gerbes: a geometric framework for Wess-Zumino terms

16:45 S. Huber (Sussex U.)

The matter-antimatter asymmetry

17:15 A. Ringwald (DESY, Hamburg)

Illuminating hidden sectors
