Subject: Invitation to Publish a Paper on Special Issue "Many-Body Quantum Chaos" of Condensed Matter (Publication Fee Waived)

Dear Colleague,

I am currently serving as the Guest Editor for the Special Issue "**Many-Body Quantum Chaos**" of the journal Condensed Matter (ISSN 2410-3896). In this regard, I would be very pleased if you would agree to contribute a short communication, research paper, or focus review to this Special Issue. Given below is some information that you may find useful in your consideration of this invitation.

The objective of the present Special Issue is to bring together original research and reviews on theory and experiment, methods from classical chaos, nonlinear dynamics, semiclassics, random matrix theory, as well as many-body condensed matter physics. The Special Issue is dedicated to Prof. Shmuel Fishman, who was one of the major representatives of the field of quantum chaos over almost four decades and who recently passed away.

You can see full details of the scope and submission details at the following website: https://www.mdpi.com/journal/condensedmatter/special_issues/quan_chao.

Condensed Matter (https://www.mdpi.com/journal/condensedmatter) is an open access journal which maintains a rigorous and fast peer-review system and accepted papers are immediately published online. The journal is currently indexed by ESCI (Web of Science) and the publication charge will be waived for accepted papers before 1 July 2019.

If you will submit within the deadline ***31 December 2019***, we will specially *waive the publication fees* for accepted papers.

For information on manuscript preparation and related matters, please see the instructions for authors: http://www.mdpi.com/journal/condensedmatter/instructions

In order for us to plan this Special Issue, I kindly ask you to inform me by at your earliest convenience if you are willing to contribute to this project. I hope this invitation will receive your favorable consideration.

Best
